Assemblywoman **Holly Schepisi** and
Assemblyman **Robert Auth** believe
the right to own a semi-automatic assault rifle
is more important than your safety.

Extremists Schepisi and Auth stood against common sense gun safety laws strongly supported by most New Jerseyans.

- ✘ Earned 5 total A ratings and took campaign cash from the NRA¹
- ✘ Voted against banning high-capacity gun magazines used in mass shootings²
- ✘ Opposed removing guns from individuals deemed a danger to themselves or others by mental health professionals³
- ✘ Refused to support establishing a statewide gun buyback program⁴

Schepisi and Auth are too extreme for New Jersey.
